

Tripod Camera Club's Photography Academy

Saturday, March 10, 2012

This full day of workshops is filled with opportunities to improve your photography. Presented by experienced photographers, the workshops cover everything from the time you press the shutter until your image is ready for printing.

Schedule

8:30 – 10:00am	<p>Raw conversion tools and techniques</p> <p>The best way to get the most out of your image files is to shoot in raw format. Learn how to use the Adobe Camera Raw converter to its full potential. The raw converter is a powerful tool with many features. You will learn basic and advanced techniques in this session that will become your new "first steps" to every image. (Plus, the first session gets all the good donuts!)</p>
10:00 – 10:30pm	Break
10:30 – 12:00pm	<p>Getting creative with your images using Photoshop filters and plugins</p> <p>Your photos are great but you are looking for a new look, a new way to make your photos stand out. This session will show you many of the exciting ways you can get creative with your photography. You will see filters and third-party plugins that will make you want to run home and try them on your images.</p>
12:00 – 1:00pm	Lunch
1:00 – 2:30pm	<p>All about Layers</p> <p>Layers and layers masks are the most important features in Photoshop. Learn how to use them to bring the most out of your photographs. Learn how to make nondestructive corrections to images, for both global and local changes (with masks) using layers.</p>
2:30 – 3:00pm	Break
3:00 – 4:30pm	<p>Actions, Sharpening, making selections</p> <p>You have heard about Actions but never learned how to create them. This session will take the mystery out of actions and show you how easily you can reduce the time you spend in front of your computer. Learn how to sharpen your images to get the most clarity out of them possible. Also learn the many ways making selections can improve your workflow and your images.</p>
