

# PHOTO in TEXT ( FILLED TEXT)

2023

Open a photo.

File > Open > Sunset

Click on the **Type** tool, and,

Choose the **Horizontal Type Mask Tool**

Make sure the font is **Impact**. ( This font has thick letters which allows room for the photo. )

Click once on the photo – it will turn red, that’s OK, that’s the mask.

You may see “Lorem Ipsum.” Hit the Delete button on the keyboard.

Type your text- **SUNSET**. Click the checkmark (OK).

The text is a **selection** !

To enlarge the text selection:

**Select > Transform Selection**

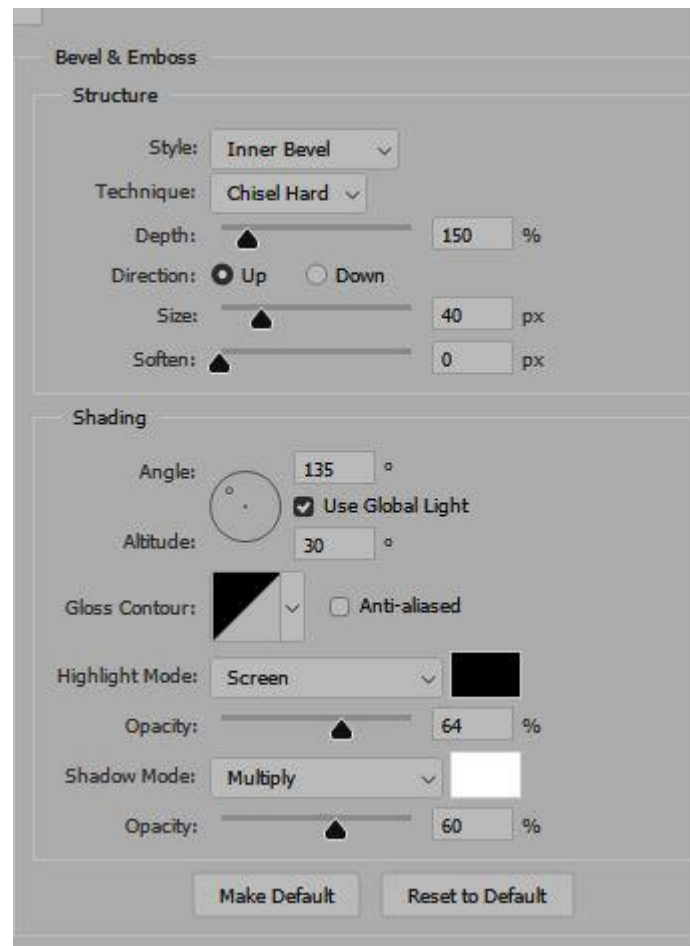

- Drag out the corners of the text to fill the photo.
  - The selection can also be moved around here.
    - ( Include the sun; exclude the foreground )
  - Click the checkmark (**OK**).
  - Edit > Copy. Edit > Paste.
  - Notice that the SUNSET text is on Layer 1.
  - Select Layer 1. ( Notice it is no longer a selection. It is pixels. )
- 
- The word SUNSET can be made taller and wider.
  - Edit > Transform > Distort
  - Drag the edge marks to enlarge the word.
  - Click the Checkmark (OK).

At the bottom of the Layers Palette,  
click on “fx.”

Select “Bevels and Emboss.”

See the attached dialog box  
for settings.

Click OK.

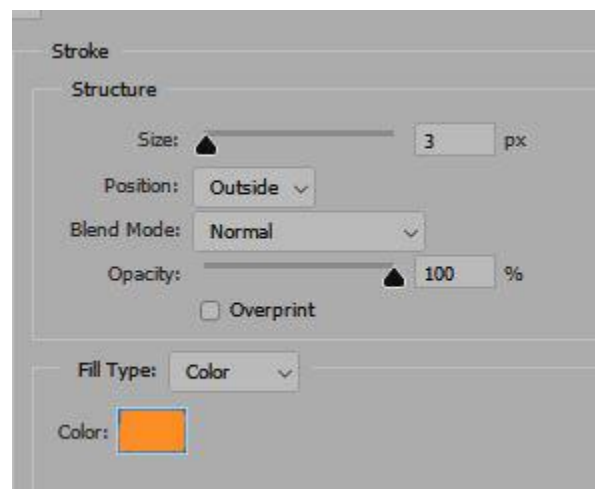

Select Layer 1.

At the bottom right, click on “fx.”

Select “Stroke.”

See the attached dialog box for settings.

Click OK.

The background color can be changed.

Double click the Background Layer.

It will become Layer 0.

Edit > Fill Layer > Black

Click OK.

You now have your “Photo in Text” or “Filled Text.”

## TYPE / TEXT in the Photo
